

A Land Clearing Story

(Gonzales, Texas)

1 - Cleared mesquite and cedar leaves defined forest edge and grasses.

2 - Brush and small tree removal facilitates savannah.

3 - New route doubles as sendero, fire break and road network.

4 - Cedars on this land blocked the view of a creek.

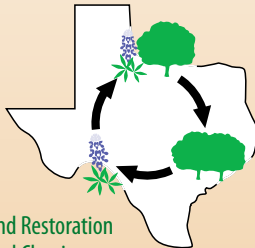

5 - Great view of creek after clearing.

6 - Brush and small tree removal on a modest scale helped ranch sell to first contact after work was performed.
